DETAILED ACTION

1. This action is responsive to the following communications: Amendment, filed 04/16/2009.
2. Claims 107-116 are pending. Claims 107 and 112 are independent claims.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art, U.S. Patent No. 6,567,980 to Jain et al., teaches a multimedia cataloger which allows indexing of video files with metadata to generate a frame accurate index that provides immediate, non-linear access to any segment of the video (col. 2, l. 6-39). Jain teaches user defined metadata clip tracks, i.e., generating position information identifying a selected position within the multimedia file (col. 6, l. 43-col. 7, l. 12).

U.S. Patent No. 5,758,180 to Duffy et al., discloses editing video using referential segments and aligning the start position of the referential segment with the start positions in different media tracks, such as a master and slave file (col. 9, l. 20-col. 11, l. 48).

In regard to independent claim 107, the claimed features of *invoking the multimedia bookmark; and calculating a playback position of a playback file based on said bookmark position information, where said calculating comprises...* (see equation at claim 107, l. 13-23), are not disclosed in the prior art. The specification, p. 40-41, also describes how the claimed playback position is calculated.

Neither Jain nor Duffy disclose the above steps of independent claim 107, and similar calculating steps are claimed in independent claim 112. It would not have been obvious to one of ordinary skill in the art at the time of the invention to have combined the claimed calculating steps and equation with the prior art of record to arrive at applicant's invention, since the above claimed features are not disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
